### Education

2013–2016 **Bachelor of Science (Advanced) (Honours)**, *The Australian National University*, Canberra, ACT, HD-average.

- Major: Theoretical Physics
- Specialisation: Advanced Physics
- Minor: Mathematics
- Honours: Astronomy and Astrophysics (graduating in December 2016)

### Honours Thesis

title *A Realistic Sub-grid Supernovae Implementation for Exploring Supernova Driven Turbulence*  
supervisors Dr Christoph Federrath  
description Implemented an analytical supernova model in a FORTRAN-based hydrodynamics codebase that employs adaptive mesh refinement, FLASH. ([jbuete.com/honours](http://jbuete.com/honours))

### Experience

#### Vocational

2016 **IT Assistant**, *Bruce Hall*, Canberra.  
Worked as part of the student IT team at Bruce Hall.  
Job Details:

- Worked as a go-between for Bruce Hall and ANU IT services;
- Fixed technology-related issues encountered by students and Bruce Hall admin;
- Ran Bruce Hall's internal website, including:
  - Writing Python scripts to update MySQL database of student information;
  - Created video series to teach student leadership team how to create and format articles on the site.

### Open Source Projects

#### FlashPy.

FlashPy is a Python module designed to interface with the HDF5 output files produced by FLASH simulations. The module provides automated analysis and visualisation tools for use in research. ([github.com/JBuete/FlashPy](https://github.com/JBuete/FlashPy))
